Sunday, 27. September 2020
Graz, Austria - Steiermarkhof

**Modern Tongue Diagnostics
in Chinese Medicine**
Hongchun YIN

PROGRAM:

1. Common characteristics of disease in the tip part of the tongue. The location of eyes, nose, ears, mouth and brain on the tongue, and the treatment of common diseases of those organs by Chinese herbs and acupuncture; and specially discuss some disease treatment such as headache, insomnia, hair loss and so on.
2. Organs reflected in the upper-jiao area of the tongue and the tongue characteristics of disease in these organs. This part mainly discusses the heart, the lungs, and the breasts. Their location and related disease treatment.
3. How to find thyroid location on the tongue and related disease treatment in Chinese medicine.

LECTURER: Hongchun YIN

Hongchun Yin received his medicine bachelor degree in Chinese Medicine from Shandong University of Traditional Chinese Medicine (TCM) in 1988, and has worked as a deputy chief physician in Qingdao Hospital of TCM. Currently, he is practicing at his own clinic of TCM in London, England and serving as an academic director of Federation of Traditional Chinese Medicine Practitioners,(UK), and a member of editorial board and an editor of [Journal of Chinese Medicine in the UK], the president of International Association of Modern Tongue Diagnostics.

He focuses on the study and research of pulse and tongue diagnosis, especially specializes in tongue diagnosis and has rich experiences on the study of Tongue Characteristics. Based on the experiences of our ancestors and contemporary experts, combined with biological holographic theory, he established modern tongue diagnosis and treatment system, and set up training courses of Modern Tongue Diagnostics.

He had published a book [Modern Tongue Diagnostics in Chinese Medicine] in English. The Chinese Edition will be published soon. Great Britain
